3. RZ23.12.01

A. The Moser Group request a general rezoning for 100 Sherin Ln PID#07102161A from US74 Commercial (C-74) to Industrial (IND).

B. Statement of Consistency and Reasonableness.

Planning Director Hsiang advised the Board that the zoning for the property came into question due to a Code Enforcement Violation requiring fencing and with no outdoor storage allowed. He explained that the zoning of C74 for this property is now obsolete, as it no longer fronts Highway 74 because of the bypass, and the rezoning will take the property back to its original zoning of Industrial, along with being consistent with surrounding properties. Planning Director Hsiang also suggested deferral as an option for the property owner to have an opportunity to come into compliance of the outdoor storage component.

Tom Crouch, Representative for the Moser Group gave a history of the property with its zoning change during the adoption of the Stallings Development Ordinance and explained that the without the change back to Industrial Zoning, fencing would still not bring the property into compliance therefore the zoning change would be the first step into coming into compliance. Mr. Crouch advised that without the rezoning, they would be forced to kick the tenant out and find another tenant to correct the situation.

Planning Director Hsiang said staff recommends approval of RZ23.12.01 because the Monroe Expressway Corridor Small Area Plan identifies this area as Industrial, and this rezoning request is consistent with the adopted plan.

After Board discussion, Board Member Van de Riet made the motion to approve the recommendation of RZ23.12.01. The motion was approved unanimously after a second from Vice Chairman Awaldt.

Board Member Van de Riet made the motion to approve the recommendation of the statement that RZ23.12.01 is consistent and reasonable in conjunction with the Comprehensive Land Use Plan. The motion was approved unanimously after a second from Board Member Grooms.

A. Staff requests a text amendment to Article 3 to amend the definition of Principle Structure.

B. Statement of Consistency and Reasonableness.

Planner I Valzonis presented the request for TX24.01.01 to add clarification to the definition of Principal Structure and Primary Structure. He explained that due to the inconsistency in the Stalling Development ordinance, both Primary and Principal Structure are used interchangeably throughout. Planner I Valzonis said staff recommends approval of TX24.01.01 as per Article 1.11-1 (A.) which

stipulates that “Words not defined in this Ordinance shall be given their ordinary and common meaning” and that the text provides clarity by addressing interchangeable terms within our Development Ordinance, benefiting both staff and residents alike.

The Town Center District (TC) provides for new development, revitalization, reuse, and infill development in Stallings’s core downtown. A broad array of uses is listed to enable the needs of residents and visitors to be met. The development pattern seeks to integrate shops, restaurants, services, workplaces, civic, educational, religious facilities, and higher-density housing in a compact, pedestrian-oriented environment. The Town Center District serves as the hub of the surrounding neighborhoods and of the broader community. The Town Center District may be expanded over time to meet the needs of the growing community for downtown facilities and services.

Follow Up Flag: Follow up

Good morning Max and Stuart,

I read over the rules and wanted to throw out a couple things I saw in there, that I may have misread, but may also need clarified.

Quorum

- Original founding document (page two (2), last sentence on the page)
"There shall be a quorum of three(3) members for the purpose of taking any official action required by this ordinance."
- (Potentially Conflicted Statement page 9, section 5-3)
"Four (4) members of the planning board shall constitute a quorum. A quorum shall be present before any business is transacted."
- Confirm also the wording of section 10.2 on page eleven (11) regarding quorum and voting requirements of the Chairman, and whether that "the (3) other voting members" is including the chairman or not. It sounds like that is still referencing only three total members present in which the chair would break the tie, because if there were three additional members it would not be possible to tie unless one was excused from voting.

Text Change

- Minor text error page eleven (11) section 8-3 the '!' after withdraw
- Remove the requirement in section 5.5 on page nine (9) regarding posting requirements
"Public notice of all regular meetings shall be made by posting a planning board agenda in a conspicuous location accessible to the general public within the Stallings Town Hall at least seven (7) days prior to the meeting. The notice shall remain posted until the meeting has been concluded"
(Replace with statement regarding the location being posted online instead)
- Discuss the section 4-4 on page nine (9). Is this a needed requirement since Mary conducts the duties of secretary in terms of meeting minutes, roll calls, etc?

These were the biggest I think needed to be brought up.

Re: TX24.03.01 - Nicotine Delivery Products Production

Request:

The Pouch Factory, a nicotine delivery product producer, submitted a text amendment application to request an addition in Article 8 Table 8.1 Table of Uses for Nicotine Delivery Products Production as a listed use (L) in Industrial (IND) zoning district.

History:

The Industrial District (IND) was established to provide locations for industrial uses that, due to the scale of the buildings and/or the nature of the use, cannot be integrated into the community. Uses within the Industrial District are buffered from adjacent uses. The dominant uses in this district are manufacturing and warehouse storage. The Industrial District is reserved for uses which require very large buildings and/or large parking and loading facilities.

Staff Recommendation:

Staff recommends approval of TX24.03.01. Staff see the potential to increase economic opportunities within the Industrial Zoning District, which aligns with the Council approved Economic Development Plan. The use also integrates with the overall vision outlined in the Town's adopted Future Land Use Plan for Industrial Zoning.

Statement of Consistency and Reasonableness

ZONING AMENDMENT: TX24.03.01

REQUEST: To amend Article 8 Table 8.1 Table of Uses of the Stallings Development Ordinance to add Nicotine Delivery Products Production as a listed use (L) in Industrial (IND) zoning district.

WHEREAS, The Town of Stallings Town Council, hereafter referred to as the “Town Council”, adopted the Stallings Comprehensive Land Use Plan on November 27, 2017; and

WHEREAS, the Town Council finds it necessary to adopt a new land development ordinance to maintain consistency with the Comprehensive Land Use Plan; and

WHEREAS, the Town Council finds it necessary to revise the Unified Development Ordinance to comply with state law found in NCGS § 160D.

WHEREAS, the Town Council finds it necessary to consider the Planning Board’s recommendations.

THEREFORE, The Planning Board hereby recommends that the proposed text amendment is consistent and reasonable with the Comprehensive Land Use Plan adopted on November 27, 2017 based on the goals and objectives set forth in the document of promoting quality development and consistency with all state mandated land use regulations established through NCGS § 160D. The Planning Board recommends to **APPROVE** the proposed amendment and stated that the Planning Board finds and determines that the text amendment is consistent and reasonable with the key guiding principles, goals, and objectives of the Comprehensive Land Use Plan for the following reasons:

1. This text amendment meets the Economic Development Plan, Initiative 2, of attracting new jobs and investment in Stallings.
2. The Comprehensive Land Use Plan expresses the desire for light manufacturing and assembly in current and future industrial zoning districts.

Re: Planning Board & Board of Adjustments Rules of Procedure Update 2024

Request:

This memo proposes revisions to the Planning Board's Rules of Procedure document to improve clarity for Board Members, Staff, and the public.

Changes:

- Streamlined Table of Contents: The following documents will be removed from the table of contents:
 - Ordinance Establishing Planning Board (1990)
 - Amendment to Planning Board Ordinance (1991)
 - Amendment to Planning Board Ordinance (2013)
 - Section 32.10: Boards Required by Statute
 - Section 125.190: Board of Adjustments Established
- Corrected Typo: A typographical error will be addressed in section 8-3 (page 11) by removing the exclamation mark after "withdraw."
- Updated Public Notice Procedure: The requirement for a physical meeting agenda posting in the Town Hall (section 5.5, page 9) will be removed.

Rationale:

- Removing the listed ordinances from the Rules of Procedure clarifies that these documents remain in effect despite their absence.
- The typo correction ensures consistency and professionalism.
- Updating the public notice procedure reflects modern practices. Online agenda posting already occurs, and legal public notice requirements are defined by state statute, not this document. Aligning the Planning Board with the Council's agenda posting approach simplifies the process.
- This revision streamlines the Rules of Procedure document and ensures it focuses on its intended content.
